

**The Institute of Biotechnology of the Czech Academy of Sciences (IBT) announces in accordance with the Act no. 283/1992 Coll. on the Czech Academy of Sciences (CAS), as amended by Act no. 420/2005 Coll. and the Statutes of the CAS an open full-time position:**

**Group leader of Laboratory of Cellular Metabolism**

**Job description:**

- Research focused on molecular mechanisms of cellular and tissue metabolism and on intercellular metabolic crosstalk, combining approaches of metabolic research with single cell transcriptomics and genomics
- Supervision of doctoral, master and bachelor students
- Writing of research papers and grant proposals

**Requirements:**

- PhD in biochemistry, molecular biology, biology or similar
- Long term research experience abroad
- Expertise in cellular metabolism, bioenergetics, mitochondrial biology and mouse models
- Ability to formulate and perform independent research
- Excellent publication track record
- Excellent communication skills and teamwork
- Readiness for high work load
- English, written and spoken, advanced level
- Good repute

**We offer:**

- Possibility to be a part of highly innovative, cutting edge research
- Access to the state of the art facilities
- International environment in the center of excellence Biocev
- The three year contract with a possible extension

**Workplace location:** Institute of Biotechnology of the Czech Academy of Sciences, BIOCEV centre, Vestec, Prague-West, Czech Republic.

**Starting date** between September 1, 2020 and January 1, 2021

Electronic applications including a letter of motivation, a structured professional *curriculum vitae* and a brief draft of the concept of building and developing research activities of the Laboratory of Cellular Metabolism are accepted at: [veronika.popova@ibt.cas.cz](mailto:veronika.popova@ibt.cas.cz).

**Application deadline:** 24. 4. 2020

*We hereby inform you that the Institute of Biotechnology of the Czech Academy of Sciences shall process your personal data only to the extent for the purposes of selection of a suitable employee and closure of a contract of employment in accordance with the General Data Protection Regulation 2016/679 (GDPR).*

*More details on the processing of personal data of an applicant for open position are available at web site: <http://www.ibt.cas.cz/o-ustavu/GDPR.html>.*
